

OLLAGEN FIRMING AMPOULE

Aife

containing plenty of natural extracts

Aife OLLAGEN FIRMING AMPOULE

A dual-functional cosmetic for whitening and wrinkle improvement,
made with Aife's unique cold-detection technique

OLLAGEN FIRMING AMPOULE

The OLLAGEN FIRMING AMPOULE

- protects skin elasticity with **adenosine** and prevents wrinkles from forming.
- **Niacinamide** improves skin tone and provides a whitening effect.
- **A combination of 5 types of ceramides** provides moisture and protects the skin.
- Contains **high-performance extracts**.
- Aife's **Cold Decoction techniques**.

Contains high-performance extracts

1. Comfrey leaf extract

- Known as the miracle herb, effective for wound healing, inflammation relief, calming, and sebum control.

2. Devil's claw root extract

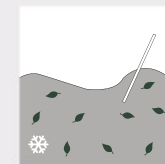

- A rare plant native to the Kalahari Desert in Africa with anti-inflammatory and antioxidant properties.

Cold Decoction Technique

Made more naturally and effectively using Aife's techniques.

This technique minimizes the destruction of active ingredients and draws out the hidden efficacy of the raw materials.

- A raw material extraction technique that applies a low-temperature extraction method for herbal medicine, slowly stirring the raw materials at low temperatures for a long time and extracting them twice.

How to Use

1. When used as a basic cosmetic, apply at the last step of basic care.
2. When used as a massage ampoule, apply the ampoule after cleansing and massage with a device.
After the massage, gently wipe off with a wet cotton pad and perform basic care.
